

Nelson Chemistry Alberta 20-30 offers complete alignment to the new program of studies.

Chemistry 20

New Curriculum Topics (2006)

Nelson Chemistry Alberta 20–30

UNIT A: The Diversity of Matter and Chemical Bonding

REVIEW UNIT: Chemistry Review

UNIT B: Forms of Matter: Gases

UNIT 1: Chemical Bonding – Explaining the Diversity of Matter

UNIT C: Matter as Solutions, Acids and Bases

UNIT 2: Gases as a Form of Matter

UNIT D: Quantitative Relationships in Chemical Changes

UNIT 3: Solutions, Acids, and Bases

UNIT 4: Quantitative Relationships in Chemical Changes

Chemistry 30

UNIT A: Thermochemical Changes

UNIT 5: Organic Chemistry

UNIT B: Electrochemical Changes

UNIT 6: Chemical Energy

UNIT C: Chemical Changes of Organic Compounds

UNIT 7: Electrochemistry

UNIT D: Chemical Equilibrium Focusing on Acid-Base Systems

UNIT 8: Chemical Equilibrium Focusing on Acid-Base Systems
