UNIT 2: Functions of a Business

CHAPTER 7: Management

E-ACTIVITY: Environmentally friendly businesses

Activity: Pamphlet on environmentally friendly practices
Prepare an information pamphlet that highlights environmentally friendly practices. Use graphics to enhance your presentation.

As society becomes more concerned with environmental issues, more pressure is put on businesses to become environmentally friendly. Reducing energy, water, and paper may be the simplest actions you can take, but they can translate into huge savings. What types of things can most businesses do to become more environmentally friendly? How can you use some of these ideas in your own lives to become more environmentally conscious?

1. Visit the [Department of Foreign Affairs and International Trade website](#) and select Greening Headquarters to discover how you can reduce, reuse, and recycle to make your workplace green.
2. Learn how you can manage [water resources](#) more effectively through the Department of Foreign Affairs and International Trade.
3. Read this article and learn about [10 easy environmentally friendly practices](#).
